DEV LAB: Angular

MP3

Due March 8th (Next Week)

50 Points instead of 100

In the spirit of the Oscars!

MP3 Goals

Create a gallery of the Top 250 Movies from IMDB

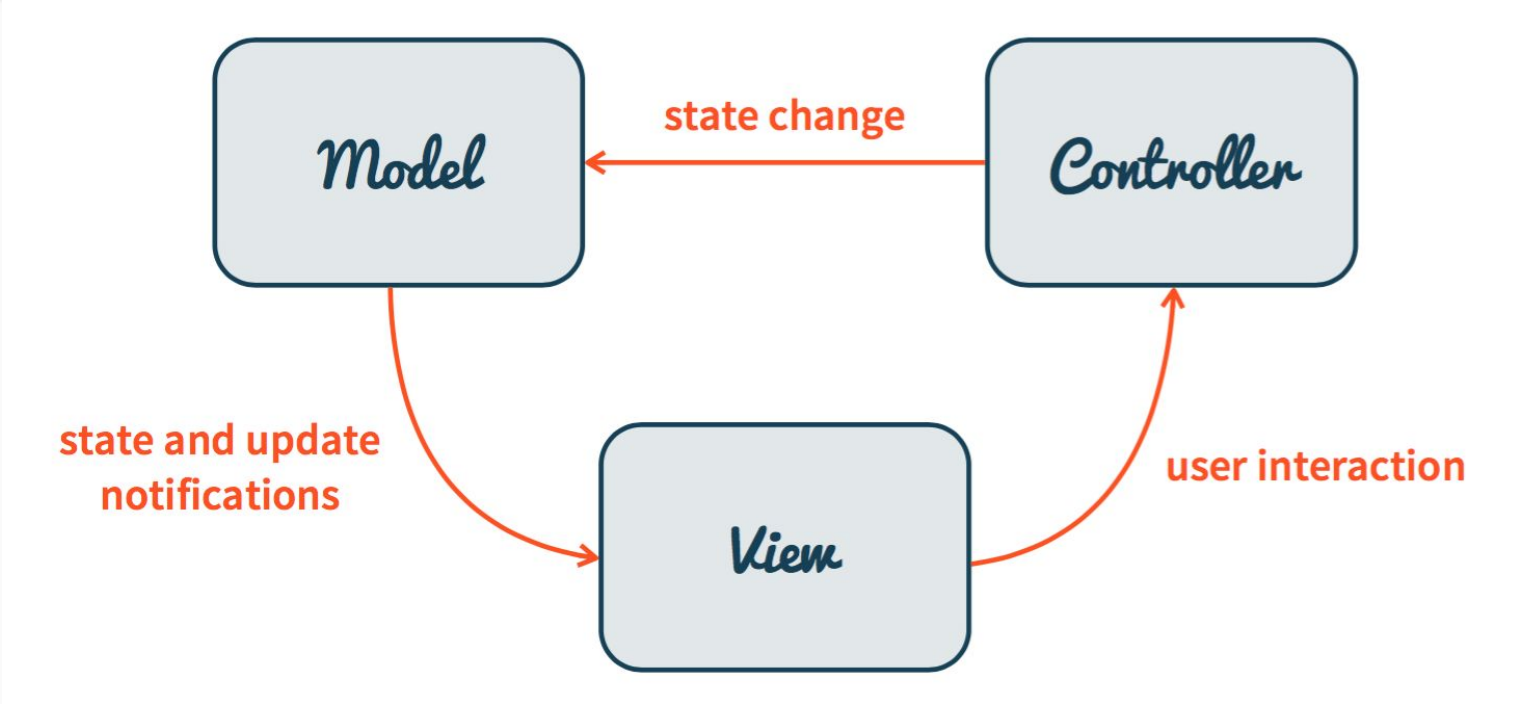
You are given the data set in a json format with accompanying images

We are not grading for design, but please use basic Foundation components like buttons

AngularJS

Version 1.3.13

MVC



Model
state change
Controller
state and update notifications
View
user interaction

ngApp

Creates the initial starting point for the app

The ng-app directive tells AngularJS that the html element is the "owner" of an AngularJS application.

Corresponding JS code starts the declaration of the module

ngControllers

Initialize inside the ngApp’s module

Expose model and functions to the view through $scope

Control parts of the models

Demo Time!
